

Your timeline with Decent

The 7 steps between you and better coverage for your team:

Step 1. You've got a quote

With great rates and plan structures that include unlimited free primary care, \$0 medical deductibles, and HSA options, you're probably pretty excited. So you're probably thinking "What's next?"

Step 2. Review your quote with your Decent rep

We want to walk you through the nitty gritty to make sure we're the best possible fit for you and your team. Together we'll review our plans in depth, answer any questions you have, and plan our next steps together.

Step 3. Submit your Employer Application

A representative of your company will have to fill out a short document denoting things like the plans you'd like to offer your employees, your billing information, and your signatory. Once you're all prepped, this shouldn't take more than 10 minutes of your time.

Step 4. Introduce Decent to your employees

Presenting new health insurance to your employees should be the best part of your week. We're here to help you in covering the complexities - let us know if your team could benefit from office hours, presentations, or direct plan comparisons and we'll take care of everything

Step 5. Complete your employee enrollments

Each of your employees will receive an email with a personalized quote through which they can enroll in coverage for themselves and their dependents.

Step 6. 10 business day waiting period

Make sure everything is submitted at least 10 business days before your desired coverage start date so we can ensure your policy goes live on your desired start date. This is a good time to set up your payroll deductions for your new monthly premiums - let us know if you need help.

Step 7. Your coverage is effective

On the next first of the month (unless you've specified something else), your coverage for you and your employees will be live and you'll all have your insurance cards. Welcome to the Decent family!
